What is unity2u?

1

unity2u is:

unity2u is a large community that brings people
Together into an advanced referral system
Powered by web 3.0 technology.

2

To begin, members must **PROVIDE HELP (PH)** into the
system, where in return they are eligible to **GET HELP (GH)**
again when needed.

Why Web 3.0?

unity2u.community

01 Blockchain Technology.

02 Decentralized Data Storage.

03 Peer to Peer network.

04 Fast transactions

05 Guaranteed communication between users.

Example of Defi wallet

IDEOLOGY of unity2u

1 Conceptually similar to insurance (takaful), where a group of participants agree to mutually help each other (contributing money into a fund) and it can be used by other members when the situation requires.

2 To join this community, members must first provide help (PH) into the system.

IDEOLOGI unity2u

3

In return, they are eligible to Get Help (GH) when they need it. This algorithm is uniquely designed by web 3.0 DeFi technology.

4

To make this community sustainable, members are taught to expand the network of members worldwide.

IDEOLOGI unity2u

5

The system prohibits wealthy individuals from manipulating the community; they are only allowed to provide help of up to 10,000 USDT and are eligible to receive help of up to 200% as a reward. This implementation applies equally to everyone.

6

Thus, the community will grow healthily by eliminating the capitalist class.
